INDUSTRIAL CLEANER

Heavy-Duty Cleaner for Stubborn Inorganic Contaminants

Performance & Action:
• Thoroughly removes inorganic grime: grease, oli, fat

Advantages:
• Heavy-duty degreasing and emulsifying
• Highly concentrated formulation – requires dilution
• Low-foaming: suitable for both machine and manual application
• Effective even at low working concentrations

RECOMMENDED SURFACES:
• Industrial concrete floors
• Epoxy and polyurethane floors
• Porcelain, glazed and ceramic tiles
• Terrazzo
• Stainless and acid-resistant steel , carbon/mild steel
• Highly chemical-resistant plastics: HDPE / LDPE (polyethylene), PP (polypropylene), PTFE (Teflon)
• Glass – safe with short exposure and thorough rinsing

pH: mildly alkaline

RUBBER CLEANER

Heavy-Duty Cleaner for Tyre Marks and Vehicle Traffic Soiling

Performance & Action
• Effectively removes tyre marks left by forklift trucks, pallet trucks
• Thoroughly removes fat

Advantages:
• Highly concentrated formulation – requires dilution
• Low-foaming: suitable for both machine and manual application
• Effective even at low working concentrations

RECOMMENDED SURFACES:
• Industrial concrete floors
• Epoxy and polyurethane floors
• Porcelain, glazed and ceramic tiles
• Terrazzo
• Natural stones
• Stainless and acid-resistant steel , carbon/mild steel
• Highly chemical-resistant plastics: HDPE / LDPE (polyethylene), PP (polypropylene), PTFE (Teflon)
• Glass – safe with short exposure and thorough rinsing

pH: alkaline

MINERAL CLEANER

Cement, Plaster and Mineral Residue Remover

Performance & Action:
- Thoroughly removes: cement, gypsum, mortars, efflorescence, limescale deposits – i.e., inorganic (mineral) grime

Advantages:
- Highly concentrated formulation – requires dilution
- Low-foaming
- Effective even at low working concentrations

FRECOMMENDED SURFACES:
- Industrial concrete floors
- Porcelain, glazed stoneware and ceramic tiles
- Paving blocks
- Glass
- Plastic (e.g., window profiles, though gaskets require caution)

pH: acidic

BIO CLEANER

Concentrated Heavy-Duty Organic Contamination Cleaner

Performance & Action:
- Effectively removes outdoor organic soiling: green algae growth, moss, lichen, leaf staining, grass marks, dirt, bird droppings, etc.
- Deeply penetrates, softens and breaks down grime, preparing the surface for high-pressure cleaning
- Inhibits new soiling and re-growth

Advantages:
- Deep penetraton into porous substrates
- Easy application (spray, pour, brush)
- Biodegradable

RECOMMENDED SURFACES:
- Industrial and decorative concrete floors
- Porcelain, glazed and ceramic tiles
- Paving blocks
- Facade plasters
- Alkali-resistant natural stone: granite, basalt

pH: mildly alkaline

BAUPUR CLEANER

Concentrated cleaner for daily cleaning of decorative surfaces

Performance & Action:
A special cleaning agent with excellent dirt emulsifying properties for daily maintenance of various types of flooring

Advantages:
- Produces a light foam
- Leaves a streak-free and smear-free finish
- Fresh lemon fragrance
- Restores floor gloss

RECOMENDED SURFACES:
- Microcement and microconcrete floors coated with polyurethane
- LVT flooring
- Wooden floors coated with polyurethane varnish
- Other surfaces requiring a neutral pH cleaner

pH: mildly alkaline

Professional Cleaning

Available packagings: 1 L, 5 L, 10 L, 20 L,
